JA Europe and Euroclear are collaborating in a skills-based volunteering approach, promoting entrepreneurial and business skills among secondary school students.

Since 2014, Euroclear volunteers have been a key success factor to the implementation of JA programmes across Europe and in Hong Kong. Throughout the school year, Euroclear volunteers are involved in mentoring activities, classroom visits, company visits, and guide the students through all steps of the national competitions.

By bringing business volunteers in the classroom to share their experience and mentor, students get a better overview of career opportunities, what skills are needed to succeed and they start to consider entrepreneurship as a potential career path.

“At Euroclear, we feel that it’s really important to invest in and nurture young talents, building a skilled and diverse workplace for the future.”

Katrien Goossens,
